

Kayla

On August 15, 1997 a special little girl was born. Her name was Kayla. Who would of thought my whole life would change on this day. She was born full term weighing in at 7lbs. 7 oz. We were so proud to be first time parents and to be able to bring her home. As months went by everything seemed to go as planned until it was time to hit some milestones as to crawling, talking and even walking. Kayla had to have therapy for all of these.

At the age of around 4 years old Kayla walked on her own without a walker.. As always everything seemed very hard for her. We knew early on she was going to be a fighter. At the age of 5 she started kindergarten in a county program in the Etiwanda school district where she learned how to say her ABCs and 123s. She has always been a social butterfly. She is very involved in the community. She plays baseball for Alta Loma challenger baseball and cheers for a special needs team in Rancho Cucamonga. Kayla is now 13 and will be starting a new chapter in her life. High school. We know kayla will do her best in anything she tries to do, and with help she will achieve her dreams.
