

The Consumer Advisory Committee (CAC) of Inland Regional Center (IRC) kicked off their weekend with a funfilled evening at their annual Monte Carlo Night on June 1, 2012. At this fundraising event they had plenty of activities to choose from throughout the evening. They were entertained with games such as bingo, poker, black jack, keno, craps, and of course, the wheel

o' fun. Tickets were given to those who played their poker chips well, and later these tickets were turned in for great prizes such as hats, sun glasses, bracelets and key chains. Attendees were entertained by the flips, jumps and spins of the adagio acrobatic act of Superman and Supergirl. Later that evening they were mesmerized by hand-crafted, old world style puppets by Scott Land Marionettes. Puppets on strings danced, juggled, skated and walked right up to the audience. As always we ended the evening with a fun dance. We are so grateful to all who participate each year. We could not do this without the generous donations of our sponsors In-Roads Creative Programs, Molina Healthcare and Inland Empire Health Plan. Special thanks to our volunteers who show their commitment to serving people with developmental disabilities.

*Monte Carlo night is an annual fundraiser event of IRC's Consumer Advisory Committee comprised of adults with developmental disabilities. The Consumer Advisory Committee come together monthly to learn, advocate and plan trainings and events for themselves. Upcoming trainings include Personal Safety, Healthy Relationships, Social Skills, Transportation, Safety, Nutrition and Healthy Bodies, Healthy Lives. To find out more about the CAC please contact Steven Miller at 909-890-4783.*
