Re: DDS Rate Reform Implementation and Development

---

Thank you for your interest in becoming a vendor with Inland Regional Center, effective **10/1/24** new developments of the following services are **ON HOLD** based on the Burns and Associates Rate Study and the 2024-2025 Rate Reform Implementation. The purpose of putting a hold on these developments is to ensure that they will be developed correctly, according to the Burns Rate Study and DDS guidelines.

- **Residential Services- all levels and home types**
- **Day Services- all services except, 956 (Coordinated Career Pathways)**
- **Transportation Services- all services**
- **Early Start Services- Including OT, PT, Speech (116), Infant Development Program (805)**
- **Supported Living and Independent Living Services**
- **Respite Services- Home Health and Routine Respite Services**
- **Social Recreation Services- All Ages Served**
- **Socialization Training Program (028)**
- **ABA/Behavioral Intervention Services**

Each of the above services are affected by the rate reform, and will be completed in phases per DDS Directive, dated September 19, 2024. [D-2024-Rate Reform-001 Rate Reform Full Implementation Overview \(ca.gov\)](#)

Each subsequent directive that is received by IRC will provide guidance on the changes for particular services associated with that directive. As those directives are implemented, service development based on each directive will be able to continue.

IRC's Development team will respond to any Letters of Intent or Inquiries for the above services with directions on this process and how you will be notified when development can continue.

**Please note that any program designs or developments for the above services which are currently in progress are not affected. This is for new developments only.**

For questions and concerns, please email [Resource@inlandrc.org](mailto:Resource@inlandrc.org).

Respectfully,

Amanda McGuire  
Program Manager, Resource Development and Transportation
